**DETAILED ACTION*****Election/Restrictions***

In response to the Applicant's election, the Applicant sets forth arguments in support of traversal. The Applicant asserts that the step of stunning a live poultry device cannot be performed by hand. However, the Applicant is reminded of the good old days of slaughtering a chicken in which a human would grasp the chicken around the neck, (NOTE the hand is the stunning device), and swing the chicken around to the point of breaking the chicken's neck, thus stunning the animal in a stunning device. Further, the Applicant incorrectly asserts that because the Grouping of claims are placed in the same classification, i.e. class/subclass, that this somehow limits the Examiner from asserting a serious burden. However, the Applicant is reminded that a variety of conditions can exist such that the Examiner can assert a serious burden. For example, but not limited to, the Examiner needs to employ different search queries for each grouping. In regards to the Applicant's arguments in support of traversal of the election of species requirement are considered moot because the Examiner has found that generic claim 1 is allowable over the prior art of record. And as such, the non-elected dependent claims 2 and 9-43 are rejoined with independent claim 1 and its dependent claims 3-8. However, in regards to claim 44, the restriction requirement is made Final. In response to this office action, the Examiner asks the Applicant to provide the Office with a new listing of claims with their appropriate claim identifiers for issue.

Art Unit: 3643

This application is in condition for allowance except for the presence of claim 44 directed to an invention non-elected with traverse in the reply filed on 05-08-2006. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

***Allowable Subject Matter***
